

Sandown Crescent

Storage solutions for surf and SUP boards and kayaks

We want you to stay fit, healthy and happy at Sandown Crescent.

Are you a surfer, SUP boarder or like kayaking and tired of carrying your equipment upstairs?

Should you like, you are allowed to store your boards or kayaks within the perimeter of your allocated parking bay, either wall OR ceiling mounted. In the event that your parking bay has an opening (grid), then the brackets have to be fitted underneath the opening (grid) and boards not to cover any part of the opening.

This will be for your own account, same as the storage boxes (SpacePlus) that can be purchased.

IMPORTANT: We have identified some manufacturers and suppliers of brackets. Should you wish to purchase brackets, **FIRST** send your request and photographs of the brackets to Kirk Odgers at Trafalgar, **for it to be approved before** installation. We **CAN NOT** be held liable for any loss, theft or damage of boards.
